Subject: D412-698-023 Automatic Door Openers

Bill,

Transport Canada has now approved the D412-698-023 Automatic Door Opener Kit. This kit has been added to Canadian STC SH92-43 for the Door Modification Kits.

A revision to the Transport Canada approval was not required to add this kit.

New paperwork is signed off and with Marc. I am sure he will release it shortly to accompany the kits that you have in production.

Based on the wording of EASA approval EASA.IM.R.S.00709, this kit is also instantaneously approved in EASA countries.

Unfortunately, because of the wording on FAA STC SR01446NY, the FAA approval needs to be revised before this kit can legally be installed in the US.

Mike P/Marc/Kim J,

Create ECN to release new paperwork.

Generate application to revise FAA STC SR01446NY ASAP.

David
